

優れた冷却性能による省エネ・小型・軽量化

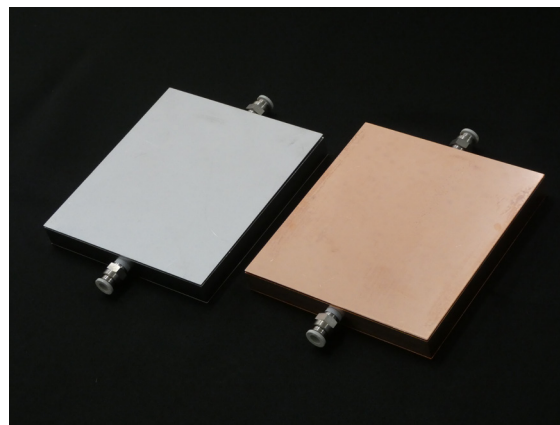

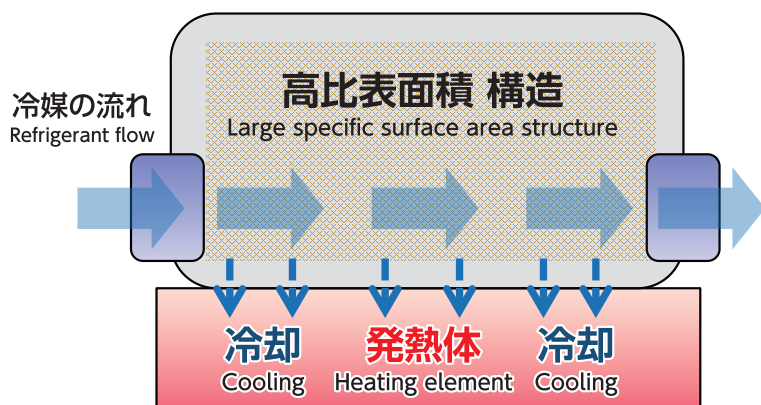

Excellent cooling performance, energy conservation, lightweight and compact

■ コンセプト Concept

- 金属繊維シート技術を活かした流路設計
Channel design utilizing metal fiber sheet technology
- 比表面積が大きく、高い冷却効果を実現
High cooling effect due to large specific surface area

冷却原理 Cooling principle

■ アプリケーション Application

- 工業設備、製造装置の温度制御
Temperature control of equipment and devices
